

**Daito Launched Authorized Generic of
Wilson's Disease Treatment "NOBELZIN®" (copper absorption inhibitor)**

Nobelpharma Co., Ltd. (Headquarters: Chuo-ku, Tokyo/Managing Director & CEO: Jin Shiomura) announced that its licensee, Daito Pharmaceutical Co., Ltd. (Headquarters: Toyama-shi, Toyama/President and CEO: Yasunobu Otsuga), launched the zinc acetate tablets 25 mg/50 mg "Nobel" (the "Product"), the authorized generic ("AG") of Nobelpharma's Wilson's disease treatment "NOBELZIN®" tablets 25 mg/50 mg (copper absorption inhibitor).

The active and inactive ingredients, the manufacturing methods and the manufacturer of this Product are the same as those of NOBELZIN®. Today, Daito launched the Product, which had been approved with the indications of Wilson's disease (hepatolenticular degeneration) and hypozincemia.

Nobelpharma and Daito cooperate in the drug information services of this Product under the marketing alliance.

Nobelpharma continues carrying out its duty for NOBELZIN® tablets and granule as an original drug manufacturer based on the accumulated treatment outcomes including the drug information services.

Daito Pharmaceutical Co., Ltd.

Daito constantly strives to contribute to the healthy life and growth of people and stably supply high-quality pharmaceutical products by cultivating the skills focused on development and manufacturing. Of all others, it contributes to the reduction in healthcare costs of the nation and the patients by supplying generic drugs at reasonable prices.

Nobelpharma is determined to keep on contributing to society by providing critical but neglected pharmaceuticals and medical devices.
